EDUCATION

National Institute Of Technology Karnataka, Surathkal, Mangalore, INDIA

- B.Tech. in Computer Science And Engineering Jul 2015 – May 2019
 - CGPA of **9.33 / 10.00** (Dec 2017)
 - Relevant Courses: Number Theory and Cryptography, Computer Networks, Database Management Systems, Software Engineering, Operating Systems, Object Oriented Programming, Data Structures And Algorithms.

T T.V. Sarvajanic High School, Surat ,INDIA (Gujarat State Board)

- Class 11th and 12th - 95.3%, and 99/100 in Maths.

M.T Boys Technical High School, Surat, INDIA

- Class 10 - 92%

TECHNICAL SKILLS

Languages - C, C++, PYTHON, JAVASCRIPT, CSS, RUBY, JAVA, HTML

DBMS - MYSQL, SQLITE

Tools/Framework - BurpSuite, MetaSploit, sqlmap, DirBuster, Linux, GIT, STL(C++), Ruby on Rails

PROJECTS

- Implementation of **Deadline Aware Data Center TCP (D2TCP)**, which derives it's functionality from **Data Center TCP (DCTCP)** in The Network Simulator **ns-3**. In this project I made the implementation of D2TCP, which is a datacenter TCP proposed by Google for time sensitive OLDI (online data intensive) applications in line with the paper (<https://research.google.com/pubs/pub37678.html>) in ns-3.

- **Singer Identification** using **MFCC** (Mel-frequency cepstrum coefficient) and **chroma** audio features. In this project I extracted feature vectors for MFCC and chroma features using Matlab, this extracted dataset was used as training and testing dataset for classification using various ML Algorithms using python's **scikit learn**, and **Deep Neural Networks (DNN)** using **Tensorflow** and an accuracy of **83%** was obtained using this.

- Backend Developer for **IRIS NITK** a web-portal for student services.(Working on the website for over two years). IRIS is a web-portal developed by the students for the students which works as student lifecycle management system throughout their life at NITK.

- Website for **ACM NITK Student Chapter** as **Webmaster**. A basic website which includes individual member logins, blogging space, personal web page generation for members, and updates sharing space for the club.

- Made a chat based website for the **Microsoft Hackathon Code.Fun.Do** 2016-17 using ruby on rails platform.

- **Finding closeness factor** between people and showing places visited by close friends using **facebook graph api**, as ACM Project.

- **Designed and Developed** personal website **alconblue.github.io**

- Implementation of OS related (process scheduling, disk scheduling, deadlock avoidance etc.) algorithms.

ACHIEVEMENTS

- **Winner of Microsoft Hackathon Code.Fun.Do** 2015-16 during freshman year.
- **First** in Competitive Coding Event **Knapsack** organised by ACM.
- Ranked 1160 in JEE MAINS 2015.

**EXTRA-
CURRICULAR
ACTIVITIES**

- Competed in Capture The Flag events (CTFTime Team = **3NIGM4**)
- **Web-Master** and Core Member of **ACM NITK** student Chapter.
- Executive Member of Webclub NITK.
- Member of developers team at IRIS NITK.
